Paul Ricoeur's work is of seminal importance to the development of hermeneutics, phenomenology and ideology critique in the human sciences. This major volume assembles leading scholars to address and explain the significance of this extraordinary body of work, opening with three key essays from Ricoeur himself. The book offers a fascinating tour of his work, ranging across topics such as the hermeneutics of action, narrative, force, the other and deconstruction, while discussing his work in the context of such contemporary figures as including Heidegger, Lacan, Levinas, Arendt and Gadamer. Paul Ricoeur is also published as volume 21, issue 5, 6 of *Philosophy and Social Criticism*.

Religion was a constant theme throughout Paul Ricoeur's long career, and yet he never wrote a full-length treatment of the topic. In this important new book, Brian Gregor draws on the full scope of Ricoeur's writings to lay out the essential features of his philosophical interpretation of religion. From his earliest to his last work, Ricoeur's central claim is that religion aims at the regeneration of human capability. In his words, the rebirth of the capable self. This book provides a rich thematic account of Ricoeur's hermeneutics of religion, showing how the theme of capability informs his changing interpretations of religion from his early work on French reflexive philosophy and the philosophy of the will to his late work on forgiveness, mourning and living up to death. Gregor exhibits Ricoeur's original contribution to philosophical reflection on such themes as evil, suffering and violence, as well as imagination, embodiment and spiritual exercise. He also presents a critical

reconsideration of ricoeur s separation of philosophy from theology and his philosophical interpretation of christian theological ideas of revelation divine transcendence and personhood atonement and eschatology additionally gregor provides an expansive look at ricoeur s interlocutors including marcel jaspers kant hegel levinas and girard theologically inclined readers will be particularly interested in the book s treatment of karl barth and the protestant theology of the word which was a vital influence on ricoeur the result is a study of ricoeur that is both sympathetic and critical provocative and original inviting the reader into a deeper engagement with ricoeur s philosophical interpretation of religion

hermeneutics and phenomenology in paul ricoeur between text and phenomenon calls attention to the dynamic interaction that takes place between hermeneutics and phenomenology in ricoeur s thought it could be said that ricoeur s thought is placed under a twofold demand between the rigor of the text and the requirements of the phenomenon the rigor of the text calls for fidelity to what the text actually says while the requirement of the phenomenon is established by the husserlian call to return to the things themselves these two demands are interwoven insofar as there is a hermeneutic component of the phenomenological attempt to go beyond the surface of things to their deeper meaning just as there is a phenomenological component of the hermeneutic attempt to establish a critical distance toward the world to which we belong for this reason ricoeur s thought involves a back and forth movement between the text and the phenomenon although this double movement was a theme of many of ricoeur s essays in the middle of his career the essays in this book suggest that hermeneutic phenomenology remains implicit throughout his work the chapters aim to highlight in much greater detail how this back and forth movement between phenomenology and hermeneutics takes place with respect to many important philosophical themes including the experience of the body history language memory personal identity and intersubjectivity
